# e-Tech Library EMEA FAQs

# Why e-Tech Library?

A new way to access technical literature featuring interactive technical content, as well as fast and intelligent search functionality.

THERN	10 KING	Thermo	King Frigob	lock EMEA Inf	oCentral User M	anuals iService Help - 🤭 🛓 -
<b>Hi Cahill, Una</b> Welcome to e-Teci Please tell us which <u>Select</u>	<b>)</b> h Library h document language(s) you ne	ed today:	CO E LIB	-TE RA	CH RY	THERMOKING
	Search All Documer	nts in e-Tech Library			Q Search Tips	
Product Family	Unit Type	Model	vorites Re	OEM	~	Document Type

# What content is available in e-Tech Library?

All technical literature. For Parts Manuals, please reference the Electronic Parts Catalog.

# e-Tech Library Content vs PDF Content?

e-Tech Library always contains the most current information. PDFs are not updated until a new revision is published. e-Tech Library functions like the Electronic Parts Catalog (EPC), utilizing real-time updates.

### Which preferred browser should I use to access e-Tech Library?

Preferred Browser: Microsoft Edge

Supported Browser: Microsoft Edge, Chrome

Unsupported Browser: Internet Explorer, Firefox

# How do I access e-Tech Library?

Login to EMEA Infocentral and access e-Tech Library EMEA from your "Quick Links".

You can also access e- Tech Library from the Technical Information section of the menu as shown below.

# How does e-Tech Library Work?

#### Selecting your language

This is based on the same concept as EMEA Infocentral. When you select your language here, this already filters the content to just the languages that you pick.

The difference from EMEA Infocentral, is that.

<u>Note:</u> You can select more than one language and I would recommend selecting English along with the language (s) that you prefer – as not all documents are translated into every language.

Note: We do have "Browser Translation" activated on our site.

# Please note that if you use your browser's translation option, Thermo King cannot is not responsible and cannot be held liable for incorrect or inaccurate translations. We still have several structured translations on the site. Please use those to verify if you have any concerns.

The above disclaimer appears on the site to explain this to all users. This is not a professional translation service, and we cannot guarantee accuracy (80-90% accuracy approximately from our testing), however, this will give access to a wider audience for translated manuals. See below for more information on how to enable this for your browser.

#### Select which language(s) you need

Your language selection(s) will be prioritized for all available document translations.

🗹 EN - English	🗆 ES - Spanish	🗹 FR - French
🗆 IT - Italian	🗹 DE - German	🗆 ZH - Mandarin
🗆 NL - Dutch/Flemish	PT - Portuguese	🗆 PL - Polish
CS - Czech	🗆 DA - Danish	🗆 HU - Hungarian
🗆 EL - Greek	🗆 RU - Russian	🗆 RO - Romanian
🗆 SV - Swedish	🗆 TR - Turkish	🗆 AR - Arabic

```
🗆 JA - Japanese
```

Apply

#### Search based on Unit Type

1. You must Select both Product Family & Unit Type from the e-Tech Library home page.

Click Search icon. (Model/Document Type can be selected to filter results)

Note: Model filter is only available for Bus Product Family and OEM is also Product Family specific.

#### Searching in E-Tech Library

E-Tech Library has an advanced search. When you search for something, this search will search the content of the documents as well as document Titles etc. The search will bring up documents most relevant first, but you can also use additional filters to find the exact document/

To search using the Search box from the home page, enter "compressor" as shown below.

	Compressor		Q Search Tips	
Product Family	Unit Type	Model	OEM	Document Type
~	~	~	~	✓ Q
	Recently Publis	hed Saved Favorites Re	cently Viewed	

On the Search Results page, you can filter from all the appropriate categories for your search (these will change depending on the document.). These filters can be collapsed or expanded as needed.

### How to enable Browser Translate?

#### Microsoft Edge:

- 1. Click on Microsoft Edge browser to see the settings.
- 2. Click Settings -> Languages.
- 3. Set the Languages as in the screenshot below. Enable "Offer to translate pages that aren't in a language I read".

Settings		Languages	
Q Search s	settings	Preferred languages Add language	s
Profiles		Websites will appear in the first language in the list that they support. To re-order your preferences, offer translations and see Microsoft Edge displayed in a language, select More actions next to a language.	
Privacy, s	search, and services		
Appearar	nce	English (United States)	
□ Sidebar		English	
Start, hor	me, and new tabs	Microsoft Edge is displayed in this language	
🖻 Share, co	ppy and paste		
Cookies	and site permissions	Offer to translate pages that aren't in a language I read	D
Default b	prowser	When this setting is on, Microsoft Edge detects the language on your webpage and offers to translate if the language detected is not listed under Preferred languages. The webpage text will be sent to Microsoft Translator service for translation, where the text is stored for service improvement	s.
<u>↓</u> Downloa	ıds	Learn more about how the Microsoft Translator service uses your data Microsoft Privacy Statement.

There is already one sensor factory evaporator. The remaining five can be optionally fitted. The System can have two sensors incorporated into the trailer. There is already one sensor factory fitted behind the evaporator. the fitted. Parent topic: Compliance Log Installation Additional Sensor Connection Procedure			
	<ul> <li>Note A spare sensor and also 30 red 22-18 AWG splice connectors are supplied with each unit in the installation kit.</li> <li>1. Locate the desired Harness (Location 1 or 2). See following graphic's.</li> <li>2. Wire connections to the Spare Sensor (detail C) are as follows:</li> </ul>			

# **Content/Topic Based Search**

Content/Topic Based Search works like Google search. Example, to search for content based on unit type T-600R/A-500, the user can type 600R to get all the results and filter the results using the search facets.

#### Not Getting Desired Search Results?

You can conduct more advanced searches:

- Use operators such as AND, OR, and AND NOT to refine your search.
  - If not specified, this page uses OR as the default between words.
- When performing an exact phrase match, for example "fuel filter", double quotation marks will automatically be added around multiple keywords.
- When performing a phrase with a hyphen (-), for example "40-871", double quotation marks will automatically be added.
- Add an asterisk to the end of your keyword to search for items that start with the word, for example, filter\*.
- Use parentheses around search terms with logical operators to group search terms. For example, you can search for:
  - ("Fuel" and "Filter") OR ("Battery" and "Charger") searches for either Fuel Filter or Battery Charger.
  - ("Fuse") and ("Size" OR "Function") and Trailer searches for items that contain Fuse Size and Trailer or Fuse Function and Trailer.
- Question marks match only one character in the middle or end of your search term.

#### Search Facets – Input Box

If a search facet for the search results exceeds 12, there is a search input box that appears under the search facet to type the search text. Example, to search SLXi-100 simply type 'slx' to get all the results.

▼ Search Type Manuals 3	Q

#### How to navigate back to the e-Tech Library home page?

Click Thermo King logo on the top Navigation bar of e-Tech Library. To navigate to EMEA Infocentral, click the dropdown.

#### Adding Favorites and viewing them

You can add favorites at any time using the "star" icon at the top right of a manual or "topic"

To View your favourites or Recently Viewed files (at any time), select the "Account" icon drop down

# Additional questions or concerns?

Please contact TK EMEA Infocentral Support
